AMERICAN MACHINIST

A PRACTICAL JOURNAL OF MACHINE CONSTRUCTION.

INDEX FOR VOLUME 23, 1900.

Illustrated articles are marked with an asterisk (*). Reviews of Books are marked with a dagger (†). Questions and answers have the serial number in parentheses.

A

PAGE

Abendroth, Death of John. 753
"Ability." 1076
Abrasive nomenclature. Morris Fulton. 1239
Accident— A novel suit for damages in Scotland. 1170
A Whizzer. 551
Was it justice? 1075
Acid, Effects on metals of Tauric. 98
Adiabatic curve, Construction of the. Professor D. A. Low. *524
G. A. H. *591
Adulteration— "Business is business." 879
Advertisements as an index of prosperity, Help wanted. 1
Ezra Estep. 210
for men to take the place of strikers. 2
Advertisers, The obligations of. 627
Frequent advertiser. 725
Advertising, Machinery. †25
Self— "Q." 595
African outlook, The South. 776
Agent, The exclusive. W. H. Booth. 853
Agents and assignment of territory to them, Sales. Editorial correspondence from Berlin. 578
For the education of purchasing. 359
Agreement of the Arbitration Board, The official. 509
Corrected copy. 601
Agricultural machinery, Peru's trade in. H. L. G. 26
Air as a lubricant for a journal bearing. Herman S. Heichert. *113
boom, The traveling liquid. 1133
chambers on pumps, Comparative value of different arrangements of suction. T. M. Wheeler. 1195
compared with steam and electricity, Efficiency of compressed (20). 871
compressor, The latest patented. Frank Richards. *164
compressors and receivers, Explosions and ignitions in. Alfred George White, M. Inst. C. E. 746
compressors, The speed of. Frank Richards. 124
hoist, A controlled. J. H. Dunbar. *723
hoist, An improved controlled. Morris Fulton. *816
hoist, Improved. N. A. Christensen's. *984
hoist, The "Sentinel." Alley & Macellan's. *425
Cyrus T. Brown. 571
hoist with unlimited travel, A self-propelling. Pneumatic Crane Co.'s. *397
lift, A telescopic. Charles O. Bulock and Bertram C. Donnelly's. *1198
liquid— The new "force." 1125
oxygen, nitrogen and carbonic acid from liquid. Prof. Pictet. 261
problems, A diagram for solving compressed. J. A. Brown. *612
pyrometer, A new recording. W. H. Bristol. 1195
the latest news of liquid. 213
traction in coal mines, Compressed. 937
waste of power in compressing (21). 875
Alinement of fitted castings, Securing the. *744
of type writers, A test wheel for. John G. Niederer. *934
All-around man vs. the specialist, The. "Q." 595
Allen, Death of George L. 1123
death of John F. 986
the work of John F. 1193, *1210
Alloy for use in automobile construction, New. 10
of aluminum, An. 70
Alloying, The use of scrap metal in. C. Vickers. 1046, 1068
Alteneder, Death of Theodore. 22
Alum, Dissolving out fragment of tool with. 964

Cabinet, A machine screw. O. S. Walker & Company's. *1146
Calculating machines. 60
W. M. Wallace. 379
Calculations for a crane girder. A. D. Williams. *127, 279
Constant Reader. 279
Calendar, The German prompter and. H. Hess. *43
Caliper for measuring the radius of spindle drills and similar pieces impossible to measure directly, Micrometer. Otto Eckelt. *816
Cams, A jig for drilling. Jos. V. Woodworth. *742
of the geometric boring tool, Analysis of the. Edwin Rust Douglas. *527
J. B. Taylor. *565
Carbolic acid for hardening tool steel. "Q." 1168
Carbon and other metalloids, Effects of remelting iron and scrap steel in changing the. Thomas D. West. 428
Carnegie profits, The. 171
John E. Sweet. 228
Bell Crank. 501
securities, Value of. 1122
to endow a technical school. Andrew. 1121
Cars, A compound friction roller for oven. Bow Pen. *187
Case hardening process. A. 983
Cast iron, Drawing board made of. *34
punching. C. W. 1119
H. C. Fish. 1188
Foundry foreman. 1222
Casting, A large. E. P. Allis Company's. 1122
a six-way pipe without a pattern. Jos. A. Murphy. *180
and pattern, A bracket. Wm. Newton. *796
by bedding in the floor, Molding a. R. H. Palmer. *1162, *1882
in a three-part flask, Molding a. R. H. Palmer. *1182
the breaking of a large. *349
with a troublesome core, A. R. H. Palmer. *248
Castings, Calculating the weight of. A. D. Williams. 1005
making name plates on. *692
Wm. Newton. 751
securing the alinement of fitted. *744
steel. A. Tissot. 862
the burning or mending of. Edward B. Gilmore. *1237
Cataclysm, Abram S. Hewitt's. 1149
Catechism on the combustion of coal the prevention of smoke, A. By Wm M. Barr. †1245
Cause, Discharge for. Tecumseh Swift. 325
Cement or glue for fastening cloth or paper to iron (28). 1095
Census and the growth of "work," The. Tecumseh Swift. 889
Center for laying out work. J. Schuring. *913
of gravity and moment of inertia of irregular sections, Graphical constructions for finding the. F. H. Hummel and G. A. Hutchinson. *720
Centers and parallel blocks, Planer. C. O. Lucas & Co.'s. *759
rig for turning lathe. W. R. G. *401
Centering device for pattern makers or wood turners. S. B. *253
forgings, A rig for trying or. E. J. H. *302
or drilling machine, A combined cutting off and. Hurlbut-Rogers Machine Company's. *548
rig, A shaft. A. Bollinckx. *697
tools at the Paris Exposition. Droop & Rein's. *633
Centrifugal pumps, Tests of. W. B. Gregory. 1196
Centrifugal Ventilators, by J. T. Beard. †146
Century begins, Where the. 1224
the best work of the. 1223
—has it paid? 1242
"Century Dictionary's" gas engine, The. Hugh Dolnar. 68
Century, The 19th. Has it paid? Tecumseh Swift. 1242
Charges on a sample drill, The. Daniel Adamson. 327
